

Temperature Resistant Steel Round Rod / Stainless Steel Bar For Decorative Bending

Our Product Introduction

For more products please visit us on metalsstainless-steel.com

Basic Information

- Place of Origin: china
- Brand Name: Sheng Quan
- Certification: ISO9001:2000
- Model Number: 201/304/304L/316/316L/321/309/310
- Minimum Order Quantity: 1ton
- Price: USD1500-USD6000
- Packaging Details: Standard Export Sea-Worthy Packing
- Delivery Time: 5-15days
- Payment Terms: L/C, T/T, Western Union
- Supply Ability: 15000Tons

Product Specification

- Processing Service: Bending, Cutting
- Dimension: 20*20*3mm-100*100*12mm
- Special Use: Cold Heading Steel
- Trading Terms: FOB CIF CFR EXW Ect
- Advantages: Strong Corrosion And Decorative Effect
- Temperature Resistance: High
- Material: Stainless Steel
- Type: Round, Square, Flat, Angle,
- Highlight: **Decorative Bending Stainless Steel Bar,
Temperature Resistant Stainless Steel Bar,
Bending Temperature Resistant Steel Round Rod**

Product Description:

Our Stainless Steel Round Bar comes in a variety of dimensions to suit your specific requirements, ranging from 4mm to 500mm. Whether you need a small or large diameter, we have you covered.

As a Stainless Steel Bar, this product is durable, long-lasting, and offers exceptional strength, making it perfect for use in demanding environments. The special composition of this Steel Rod ensures that it is resistant to rust, corrosion, and other forms of wear and tear, making it ideal for use in harsh conditions.

Our Stainless Steel Round Bar is also highly versatile and can be used in a wide range of applications, including construction, automotive, marine, and industrial settings. Its exceptional strength and durability make it an excellent choice for use in cold heading steel processes, where it can be easily cut and bent to meet your specific needs.

In addition to its superior strength and corrosion resistance, our Stainless Steel Round Bar also offers excellent decorative effect, making it the perfect choice for architectural and design applications. Its sleek and modern appearance adds a touch of sophistication to any project, making it a popular choice for use in furniture, lighting, and other decorative fixtures.

At our company, we are committed to providing our customers with the highest quality products and services. That's why we offer a range of processing services to help you get the most out of your Stainless Steel Round Bar. Whether you need bending or cutting services, we can help you customize your Steel Rod to meet your specific needs.

So if you're looking for a durable and versatile Stainless Steel Round Bar that offers exceptional strength, corrosion resistance, and decorative effect, look no further than our premium grade Steel Rod product. Contact us today to learn more about our range of Stainless Steel Round Bar products and services.

Product Name	Bright Stainless steel rod	
Material	201 304,304L,309S,310S,316,316L,316Ti,317,317L,321,347H,2021,202,405,409,410,420,430,etc	
Type	Round Bar	
Surface	Bright Polished	
Diameter	Round Bar	Diameter: 3mm~50mm
Length	3m-6m or custom cutting any length as request	
Quality test	we can offer MTC (mill test certificate)	
MOQ	300 kgs	
Payment terms	L/C T/T (30%DEPOSIT) or upon negotiation	
Stock or not	in stock	
Packing	Bundled,wooden box for export standard package	
Delivery time	7-15 days,or according to the order quantity or upon negotiation	

Features:

Product Name: stainless steel rod (SS Rod)

Type:

Round (Metal Round rod)

Square

Flat

Angle

Special Use: Cold Heading Steel

Trading Terms: FOB, CIF, CFR, EXW, Ect

Grade: Stainless Steel Bar

Thickness Tolerance: $\pm 0.01\text{mm}$

Applications:

These metal round rods are a versatile product with many applications. They are commonly used in the construction of buildings, bridges, and other structures, as well as in the manufacturing of machinery and equipment. Steel round rods are also used in the production of automotive parts and aircraft components, due to their high strength and durability. Stainless steel bars are often used in the food and beverage industry, due to their resistance to corrosion and high temperatures.

These stainless steel rods are available in various types, including round, square, flat, and angle. They are suitable for use in a wide range of temperature conditions, due to their high temperature resistance. The thickness tolerance of this product is ± 0.01 mm, ensuring precision in manufacturing.

Sheng Quan's stainless steel rod product line is an excellent choice for those in need of a reliable and versatile metal product. With its high quality, competitive pricing, and wide range of applications, this product is sure to meet the needs of customers in a variety of industries.

Customization:

Packing and Shipping:

Product Packaging:

The stainless steel rod product will be packaged in a sturdy and durable cardboard box.

The rod will be wrapped in bubble wrap to ensure its protection during shipping.

A label with the product name and description will be placed on the box for easy identification.

Shipping:

The stainless steel rod product will be shipped via standard ground shipping.

Shipping times may vary depending on the destination.

Customers will receive a tracking number via email to track their package.

If there are any issues with the shipment, customers can contact our customer service team for assistance.
