## Product Description

### Product Description:

Our Stainless Steel Cable Tray is available in a range of widths from 50mm to 1000mm, making it suitable for managing cables of all sizes. The tray is made from high-quality stainless steel, which provides excellent strength and durability, making it ideal for use in harsh environments.

The tray is also customizable in length, ensuring that it can meet the specific needs of your project. Our Stainless Steel Cable Tray is resistant to weather and other environmental factors, making it perfect for use in both indoor and outdoor settings.

The Inox Cable Channel is designed to provide a secure and reliable metallic rod cabling system. The channel is made from high-quality stainless steel, ensuring that it can withstand even the harshest of conditions. This makes it an ideal choice for use in both indoor and outdoor settings.

Our Inox Cable Channel is available in a range of widths, ensuring that it can meet the specific needs of your project. The channel is also customizable in length, ensuring that it can be tailored to the specific requirements of your project.

Our Stainless Steel Cable Tray and Inox Cable Channel are both made from high-quality stainless steel, ensuring that they are strong, durable, and able to withstand even the harshest of environments. These products are perfect for use in a variety of different settings, including residential, commercial, and industrial applications.

Whether you are looking for a cable management solution for your home, office, or factory, our Stainless Steel Cable Tray and Inox Cable Channel are the perfect choice. With their strength, durability, and weather resistance, you can be sure that they will provide reliable and long-lasting performance, no matter what your needs may be.

### Features:

Product Name: Stainless steel cable tray

Maintenance: Low Maintenance

Accessories: Available For Purchase Separately

Cable Tray Depth: 50mm-1000mm

Durability: Long-lasting

Application: Indoor And Outdoor

Chrome Nickel Wire Mounting Tray

Metallic Rod Cabling System

Inox Cable Channel

### Technical Parameters:

Product Name:	Steel Wire Cable Tray
Material:	Stainless Steel
Product Type:	Chrome Nickel Wire Mounting Tray
Cable Tray Depth:	50mm-1000mm
Cable Tray Height:	50mm-1000mm
Cable Tray Length:	Customized
Load Capacity:	Medium To Heavy Duty
Corrosion Resistance:	High
Durability:	Long-lasting
Maintenance:	Low Maintenance
Application:	Indoor And Outdoor
Accessories:	Available For Purchase Separately
Product Name:	Inox Cable Channel

### Applications:

The ShengQuan Stainless Steel Cable Tray is available in various sizes and depths, ranging from 50mm to 1000mm, making it suitable for a wide range of applications. Whether it is for industrial or commercial use, this product is designed to provide a secure and efficient cable management system that will meet your specific needs.

Customization is also available for the cable tray length to match the length of your cables. This ensures that your cables are kept organized and protected, reducing the risk of damage and downtime.

In addition, accessories are available for purchase separately, allowing you to further customize your cable management system to fit your unique requirements.

The ShengQuan Stainless Steel Cable Tray can be installed using various methods, such as wall-mounted or suspended, depending on your preferences and the application scenario.

Overall, the ShengQuan Stainless Steel Cable Tray is a reliable and cost-effective solution for organizing and protecting your cables.

Whether you need it for your industrial or commercial applications, this product is designed to provide you with the peace of mind that comes with a high-quality cabling system.
